

BOSS TRANSFORMER COMBI HF 75

Restoring pump with anti-acid vertical axis. Suitable for domestic systems of medium dimensions. With trolley with an exclusive design with tank of 75lt.

COD. 301301005

CHEMICAL AND PHYSICAL FEATURES

WEIGHT	32 kg
ELECTRICAL PROTECTION	IP 55
IN/OUT CONNECTIONS	3/4" F
MAX. FLOW RATE	52 l/min
OPERATING PRESSURE	1,6 bar
TANK CAPACITY	75 litres
MAX. TEMPERATURE	70°C
MATERIAL	PP and aluminum
MOTOR	230vac /50 Hz/0,373 kW
DIMENSIONS	H: 1020 mm L: 460 mm P: 550 mm

PACKAGING FEATURES

NUMBER OF PIECES PER BOX	1 pc
NUMBER OF PIECES PER EPAL PALLET	2 pcs
BOX DIMENSIONS	H: 115 L: 58 P: 50 cm
EPAL PALLET DIMENSIONS	80x120x130 cm
PRODUCT WEIGHT	32 kg
BOX WEIGHT	34 kg
EPAL WEIGHT	88 kg
CUSTOMS CODE *	8413.81.00
BARCODE EAN 13	8054633849910

*Data updated in May 2016

ADVANTAGES

- Easy to carry
- High performances
- Operating up to 70°C
- Exclusive design

BENEFITS

- Optimal heat exchange restoring
- Energy consumption reduction
- Reduction of energy consumption visible on your bill
- Reduction of processing time thanks to the complete hydraulic control system

MAIN FEATURES

Boss Transformer Combi HF 75 has been designed to offer to the final user a solid product, multifunctional and with unique features present on the market.

This product guarantees to the maintenance technician to operate both with products suitable for the restoring and conditioning of closed heating and cooling circuits, and with products with an acid base to descale. This product has the maximum modularity, also expressed in the shapes, that makes it customizable and extremely versatile. The supporting structure in varnished aluminum is hooked to a tank in shock resistant, reinforced and antacid polypropylene tank. Pump with antacid vertical axis, threaded recirculating pipes, equipped with closing valves and flexible connections to simplify the connection to the system. 3-ways valve for the fast flows exchange, and PVC, anticorrosive fitting. The pump is equipped with a tap on the lower part to simplify the drain of the tank.

APPLICATION AND USE

Pump for the cleaning, refill, restoring and drain of heating and cooling systems both of conventional and low temperature, made of any plastic and metal material. Descaling with acid products of heat exchangers and pipes of sanitary systems.

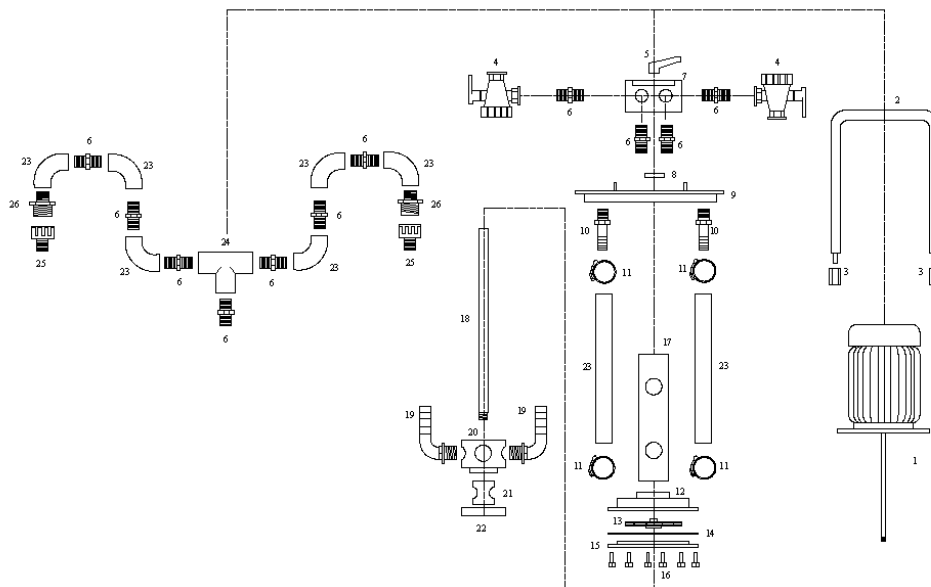

WHAT DO I NEED TO INSTALL IT

- Flexible pipes for an easier connection
- Nipples
- Connections
- Typical plumber's tools for connections of different type.

CORRECT INSTALLATION

1. Connect the pipes to the device (discharge, return, charge and drain)
2. Control the connections endurance
3. Connect the pump to the system that has to be treated
4. Fill the tank with clean water and add the restoring/descaling chemical product

PACKAGE CONTENT

- Pump
- Connection pipes equipped with connections of ¾" and hose clamps:
 - 2 m discharge wired hose
 - 2 m return wired hose
 - 2 m replenishment wired hose
- User's guide

MAINTENANCE

Respect all regulations for the use and disposal of the finished solution. It is suggested, in case of dripping, the immediate cleaning with water rinse. Be careful not to wet the motor of the pump. Periodically control the connections holding.

DO NOT LEAVE THE PUMP UNATTENDED WHILE IT IS IN OPERATION. AT THE END OF DESCALING OPERATIONS, PROCEED TO ABUNDANTLY RINSE THE PUMP WITH CLEAN WATER. DO NOT LEAVE ANY CHEMICAL PRODUCT INSIDE THE TANK.

OPTIONAL

1. Pump cleaning adaptor

TO BE USED WITH

1. Conditioning products for heating systems
2. Geothermal products
3. Cooling products
4. Solar thermal products
5. Descaling products

OFFER DESCRIPTION

Descaling centrifugal pump, with antacid vertical axis. Connection from ¾", tank 75 litres. To be used to restore small and medium heating systems and to clean wall-mounted boilers, hearth-mounted boilers, big boilers, heat exchangers, boilers, chiller and molding machines. To be used up to 70°C. Flow rate 52 l/min, prevalence 1,6 bar. Electricity supply 230 VAC.

COMPLIANCE

This product mod. BOSS TRANSFORMER COMBI HF 75 has been designed and constructed in accordance with the following European directives (including all applicable amendments):

Directive 2006/42/EC: Machine

Directive 2006/95/EC: Low Voltage

Directive 2004/108/EC: Electromagnetic Compatibility

Directive 2011/65/EC: RoHS 2

In addition, declares, that the electrical material used to made the product is in compliance with Regulation CEI-EN 60034: Electrical rotating machines. Part 1: Nominal and operative features.

ORIGIN OF THE PRODUCT

 Made in Italy
