## ADVANTAGES

- Restoring of the correct circulation inside the system
- Suitable for all systems, included the ones with aluminum components
- Not aggressive, does not need any neutralization
- Easy to handle
- Removal of muds, corrosion deposits and debris present inside the system
- Not acid and not corrosive product
- CO2 emissions reduction
- Insensitive to overdoses

## BENEFITS

- Low environmental impact
- Reduction of energy consumption visible on your bill
- Extension of the system duration
- Reduction of maintenance costs

## MAIN FEATURES

BP COLD R restorer eliminates any muds accumulation inside cooling systems, operating since more than 6 months. Not acid, brings into suspension the accumulated slurry, improving the circulation inside the system.

Lubricates valves and pumps and restores the maximum heat exchange of circuits.

## APPLICATION AND USE

### HOW TO PROCEED:

1. Add BP COLD R product directly inside the full system in a concentration of 1% compared to the water volume of the system.
2. Starts the system at a normal operating temperature. If necessary repeat the treatment; at the end drain the system and rinse till when clean water will be obtained. Suitable for all systems in operation since more than 6 months.

## OFFER DESCRIPTION

---

Anticorrosive restoring liquid for cooling systems operating since a long time. Restores the system doing its total cleaning, its lubrication, and the restoring of the correct circulation.

## COMPLIANCE

---

BP COLD R is a product designed for the treatment of water primary circuit of a heating system. Water treatment of domestic heating systems is specified inside Regulation UNI-CTI 8065/89, decree 26/2015 and Regulations UNI-CTI 8364/84 and UNI-CTI 9317/89. These Regulations respond to European directive 2010/31/UE, concerning the energetic performance inside buildings.

## STORAGE

---

Store the original sealed containers in a cool well-ventilated place, away from heat sources. Keep the container tightly closed if not used. For further information consult the related safety data sheet.

## ORIGIN OF THE PRODUCT
