

BP SOLAR PANEL CLEANER

Specific concentrated blend to clean external solar and photovoltaic panels.

5L - COD. 301002003

CHEMICAL AND PHYSICAL FEATURES

| | |
|--------------------------------------|------------------------|
| FORMAT | 5 litres |
| pH | 7 |
| DENSITY (KG/DM ³ AT 20°C) | 1,02 g/cm ³ |
| COLOUR | yellow |
| ODOUR/FRAGRANCE | citrusy |
| DOSAGE | 10-25% |

PACKAGING FEATURES

| | |
|----------------------------------|-------------------|
| | 5 L |
| NUMBER OF PIECES PER BOX | 3 pc |
| NUMBER OF PIECES PER EPAL PALLET | 105 |
| BOX DIMENSIONS | H: 27 L: 20 P: 50 |
| EPAL PALLET DIMENSIONS | 80x120x147 cm |
| PRODUCT WEIGHT | 5,25 kg |
| BOX WEIGHT | 16 kg |
| EPAL WEIGHT | 580 kg |
| CUSTOMS CODE* | 3402.11.90 |
| BARCODE EAN 13 | 8054633848722 |

* Data updated in May 2016

ADVANTAGES

- Neutral pH
- Not corrosive for systems components
- Solar panel performance increase
- Biodegradable

BENEFITS

- Restoring of the correct functioning of solar panels
- Low environmental impact
- Reduction of energy consumption visible on your bill
- Extension of the system duration

MAIN FEATURES

Concentrated blend of alkaline salts and surfactants agents, specific for the solar panels and photovoltaic cleaning. It is a concentrated cleanser of natural extraction with neutral pH.

1. Restores the photovoltaic/solar panel as at its origin, improving its ability of producing energy.
2. Does not corrode metals, varnish and systems components.

Panels perfectly cleaned constantly guarantee 100% of initial efficiency, so an annual maintenance cleaning is the least that could be suggested to avoid significant yield drop. Not suitable for the cleaning of photovoltaic system on the ground (unless is not present a suitable collection system of the leachate).

APPLICATION AND USE

Use the solution in quantity from 25% to 10% of water, in accordance to quality and quantity of dirt of panels. Spray on the panel, let it act a few minutes and finally rinse. It can be used with the pressure water jet machine, dilute at 5% or simply nebulize it with a normal manual nozzle, or using a low pressure pump with dilutions indicated above.

COD. 301002001 (10 L) - 301002002 (20 L)

1.

TO BE USED WITH

1. Pressure water jet machine
2. Manual nozzle
3. Low pressure pump

OFFER DESCRIPTION

Special concentrated cleanser for the external cleaning of solar and photovoltaic panels. Package: tank of 5 litres.

COMPLIANCE

Cleaning treatment and maintenance of the efficiency for the hydro-sanitary technological systems is prevue by DPR 412/93 and Regulation 26/2015 (energy performance inside the construction industry). This product contributes significantly to energy saving.

WARNINGS /SHELF LIFE

Store in a fresh, well-ventilated place; keep the container tightly closed when it is not used. Do not smoke during the product handling; store away from heat sources, open flames, sparks and other ignition sources. For further information consult the related safety data sheet.
